

Finding Audiobooks

To find audio editions of books by a particular author, enter the author's name in the author field, and select the type of edition in the type field. See the example below.

To retrieve a list of all of the audiobooks on cassette, or all of the audiobooks on CD, select the corresponding edition in the type field, and click on the search button. Leave the other fields blank.

The screenshot shows a search interface with the following fields and values:

- words or phrase: [empty]
- author: danielle steel
- title: [empty]
- subject: [empty]
- series: [empty]
- periodical title: [empty]
- library: Racine Main Library
- language: ANY
- format: ANY
- type: Audiobook CD (highlighted)
- location: ANY
- item category 1: ANY
- item category 2: ANY

Buttons for Search and Reset are located below the search fields.

Click here to select the type of material that you want, such audiobook cassette or audiobook CD.
