

Finding Large Print Books

To find large print editions of books by a particular author, combine the author's name with the phrase "large print" using the word "and." See example below.

To retrieve a list of all large print books, do a words or phrase search using the search term large print.

A screenshot of a library search interface. The search term "koontz and large print" is entered in the "words or phrase" field. The "library" dropdown is set to "Racine Main Library". A "Search" button is visible, and a "Power Search" link is located below the library dropdown.

Finding Audiobooks

To find audio editions of books by a particular author, enter the author's name in the author field, and select the type of edition in the type field. See the example below.

To retrieve a list of all of the audiobooks on cassette, or all of the audiobooks on CD, select the corresponding edition in the type field, and click on the search button. Leave the other fields blank.

A screenshot of a library search interface. The "author" field contains "danielle steel". The "type" field is set to "Audiobook CD". A callout arrow points to the "type" field with the text: "Click here to select the type of material that you want, such as audiobook cassette or audiobook CD." Other fields include "words or phrase", "title", "subject", "series", "periodical title", "library" (Racine Main Library), "language" (ANY), "format" (ANY), "location" (ANY), "item category 1" (ANY), and "item category 2" (ANY). "Search" and "Reset" buttons are also visible.
