

# Finding DVDs, Videos, and Music

Use the Power Search to find DVDs, videos, and music

To find videos or DVDs starring a specific actor or actress, enter the person's name in the author field, and select either "videos" or "DVD collection" in the location field.

To find compact discs or audiocassettes by a specific composer, enter the composer's name in the author field, and select either "compact disc music" or "audiocassettes" in the location field.

For a list of all compact discs, all videos, or all DVDs, select the corresponding collection in the location field, and click on the search button. Leave the other fields empty.
